Unlike other homes you can find around Hanover, this unique house was built in 1976, with additions added on in 1990. It features a primary suite which takes up the whole upstairs, with a bathroom that has a stand up shower and a soaking tub. There is also a walk in closet with built in features to help store your clothes and shoes. On the first floor, you will find a bedroom with its own full bathroom, which has a standup shower. There are two other bedrooms on the first floor, though the one bedroom might be better utilized as an office given it's size.
