The two reception rooms are open plan and create a wonderful family area with a beautiful period fireplace, traditional radiators and shutters in the bay window. The kitchen, which has been extended from the original footprint of the house, has both a period and a modern feel with its Velux windows and French doors leading out into the garden. The first floor has two double bedrooms that are filled with natural light, with the original principal bedroom retaining its feature fireplace. The modern family bathroom also sits on the first floor including a bath and walk-in shower. The principal bedroom suite takes up the whole of the second floor, complete with a modern en-suite shower room and a large picture window, looking out onto the rooftops of the city. Externally, there is a typical Victorian terraced garden which has been landscaped for ease of maintenance with planted borders, a sunny patio and gated side access. Reference OXF250272
