Its proximity to the sea and golf courses achieves the perfect balance between nature and active life, which allows residents to enjoy outdoor walks, as well as social and sports activities, throughout the year. The houses are oriented to make the most of natural light and the visual connection with the landscape. The large terraces and private outdoor spaces naturally expand the interior, providing the perfect place to enjoy the weather, silence and light changes throughout the day. Every corner invites you to slow down and live more consciously. The complex has common areas designed for rest and shared enjoyment, which are discreetly integrated into the environment. The whole project conveys a sense of serenity and balance, which makes it ideal for those looking for a home in which the environment is an integral part of everyday life. #ref:CBSh1375\_B
