CALLE ARALIA EL FARO DE CALABURRA  
- CHAPARRAL MIJAS

New complex of semi-detached houses located in a privileged natural environment, surrounded by pine forests and rolling hills, the complex integrates into the landscape, making the most of the Mediterranean light to create a serene and welcoming environment. The contemporary architectural design provides a constant connection with the exterior. Private gardens, large terraces and large windows allow residents to enjoy the lush surroundings and fresh air all year round. The low density of the complex reinforces the feeling of privacy and exclusivity, creating a quiet environment where nature and home coexist in harmony.

**Garage**

**€975,000**

Inside, the spaces are organized in an open and functional way, designed to adapt to everyday life. Natural light marks the tone of the rooms, while the materials and finishes provide warmth and continuity. Each home has spaces both to socialize and to relax, with a constant visual connection with the outdoor environment. The project is completed with common areas designed for rest and enjoyment outdoors. Swimming pools, garden areas and relaxation spaces further enhance the experience of living in a small natural refuge. All this in a location that combines tranquility with proximity to the coast, as well as easy access to services, beaches and leisure areas of the Costa del Sol. #ref:CBSH1374\_A
