LES HOUCHES 74310 FRANCE

A wonderful opportunity, whether you're looking to renovate a farmhouse with plenty of land or to renovate and build a new building. Located in Les Chavants, the property enjoys exceptional sunshine all year round, as well as panoramic views of the mountain ranges. This 18th-century farmhouse, in need of renovation, offers incredible potential. On the ground floor are two connected flats, and upstairs is a barn offering a vast space to convert as you wish. This brings the total floor area to 296m². The 2,922m² of buildable land offers the possibility of adding a further 990m² of floor space.
