5BD | 3.5BA | 3,258 SF | Pool | Outdoor Kitchen | 3-Car Garage The best home purchases aren't about finding perfect - they're about finding the right foundation. This one gives you exactly that. Five bedrooms, 3,258 square feet, a pool, outdoor kitchen, and expanded patio. The layout works. The size fits. The location is solid. What you bring is the vision. The buyers who win here are the ones who want to put their own stamp on a home - updating on their timeline, building equity as they go, ending up with a space that reflects their taste. The size is already generous enough that even small improvements make a big statement. Families grow into homes like this.
