The primary suite is a standout, complete with a beautifully updated closet and elegant chandeliers in both the bedroom and bath, adding just the right amount of character. You'll also find a chandelier in the entry, setting a warm, welcoming tone from the moment guests walk in. Ceiling fans help keep things comfortable year-round. Need flexibility? The 4th bedroom features French doors, making it ideal for a home office, study, or a flex space. Now let's talk about the backyard because this one earns bragging rights. It's fully equipped with ceiling fans, lighting, outlets, and even a gas connection ready for grilling, entertaining, or just unwinding after a long day in Texas. And here's the part that makes your wallet smile: paid-off solar panels and a roof installed in June 2025. That's peace of mind and energy savings already taken care of. This home checks the boxes-and then adds a few more you didn't even know you wanted.
