On the outside, a 75 sq m front yard, a beautifully landscaped 175 sq m terraced backyard with a 25 sq m patio, as well as a second-floor balcony offering unobstructed views of the capital, invite you to relax and take in this unique setting. The interior of the house, spread across three levels, stands out for its excellent overall condition, abundant natural light, and perfectly preserved and maintained period charm. The main level features a spacious entryway leading to a sun-drenched, 30 sq m front-to-back living room, an office space, and a kitchen. A 5 sq m bonus room offers the potential to create another bathroom on this level. The property is rounded out by a highly functional full basement that includes a wine cellar, a workshop, a laundry room, and an extra storage cellar.
